

Project Id: 8

Project Name: DU-Info App

Project Supervisor: Sachin Kumar, Assistant Professor, CIC

Project Member: Sagar

Project Type: Semester Long

Project Status: Complete

Project Abstract: The idea of the developed Android application was to give systematic information related to University of Delhi in user hands. Users have to install android application to get information related to University of Delhi. This app will be soon available on Google Play. Users don't have update application again and again for getting latest update. Application only needs Internet for updating latest events. In addition, the core objective of this application was to act as a guide between DU website and the students in systematic way. The outcome of the project was a working Android application that acts as a guide which will provide all the information related to University of Delhi easily using android phone.
